Profile Summary

Motivated and detail-oriented frontend developer focused on clean, responsive, and accessible UI. Hands-on with React (Vite), Tailwind, and modern JavaScript. Experienced in WordPress maintenance (Elementor and Avada), WooCommerce, and site performance. Open to freelance and part-time roles (remote or Serbia).

Skills and Technologies

- HTML, CSS, JavaScript (ES6+), React with Vite, Tailwind CSS
- WordPress (Elementor, Avada), WooCommerce, product feeds
- Git and GitHub, responsive design, basic SEO and accessibility

Services

- WordPress maintenance: updates, backups, security, speed, weekly content edits
- WooCommerce: product filters and sorting by attributes, feeds for Google and Facebook
- Frontend (React and Tailwind): clean UI, small features, bug fixes, refactors
- Site audits and consulting for small businesses

Experience

- Weekly maintenance (4-5 hours) of two WordPress and WooCommerce sites using Woodmart and Elementor
- Custom backend pages for product display based on categories and attributes
- Product feeds for Google and Facebook; catalog organization and sorting

Selected Projects

- Weather App - Clean UI with real-time data
- BMI Calculator - Fast BMI tool with validation
- Notes App - LocalStorage CRUD notes
- Password Generator - Strong password options
- Gradient Generator - Instant CSS gradients
- Gallery - Responsive gallery with modal view

Location: Serbia (Belgrade / Pancevo) | Available for freelance and part-time
